Subject: Policy Memorandum 245.06-22: Verification Non-Response Rates for Large School Districts

To: Child Nutrition State Directors
National School Lunch Program

This policy memorandum was previously issued directly to State agencies on September 15, 2005, by the National office. We are issuing this memorandum to incorporate this policy into the SERO numbered policy system.

Previously issued SERO Policy Memorandum 245.06-16, provided information on the verification requirements in the Child Nutrition and WIC Reauthorization Act, including the alternate verification sample sizes available to Local Educational Agencies (LEA's) meeting certain conditions. We also provided a compilation of all memoranda on verification requirements issued since the summer of 2004 in August, 2005.

Attached is a list of LEA's which potentially will have more than 20,000 children approved for free or reduced-price meals by application as of October 1st of the school year. These LEA's are eligible for the alternate sample sizes in SY 2006-2007 if they improve their verification non-response rates by 10 percent this year (SY 2005-2006).

As a reminder, the law also contains a provision which permits large LEA's to qualify for alternate sample sizes this year only (SY 2005-2006) if they attempt to "directly verify" all approved applications selected for verification through the use of public agency records from at least two of the following programs: Food Stamps, Food Distribution on Indian Reservations, State Temporary Assistance for Needy Families (TANF) and State Medicaid.

For this year and future years, all LEA's will be able to qualify for alternate sample sizes if their non-response rate from the preceding year is less than 20 percent. All LEA's should be aware of this provision.

We are notifying the large LEA's on the attached list of the special options that are available to them. Should you have any questions, please contact this office.

J. JOE GALLAGHER
Acting Regional Director
Special Nutrition Programs
